AND SOCIAL POLICY**

entitled

*Social Work and Social Policy
in urban and rural areas*

**TO BE HELD ON JUNE 5, 2023
ONLINE**

In connection with the Ordinance No. RKR.Z.0211.7.2023 of the Vice-Rector of the Pedagogical University of Krakow on the organization of the didactic process in the summer semester of the academic year 2022/2023 caused by the organization of the European Games in Krakow, the Conference Organizing Committee decided to maintain the date of the conference on June 5, 2023 while resigning from conference fees.

The conference will be held online on the MS TEAMS platform.

The conference will be an opportunity to discuss current processes and changes taking place in both rural and urban environments at the social, educational, economic and economic levels. They generate many challenges for both the social policy system and social work. In particular, we propose that the discussion revolve around the specificity of rural and urban environments, the search for challenges, similarities and differences in social policy and social work implemented in rural and urban areas, and their socio-political, cultural and economic conditions.

**1ST INTERNATIONAL CONFERENCE

POLICY**

At the same time, we would like to inform you that the opportunity to register for participation has been extended until May 10, 2023.
